

# A795

## Two-Color Single Station Thermal Printer

# Axiohm™

### A795 Two-Color Single Station Thermal Printer

Designed for hospitality and general retail applications, the A795 is the fastest and most reliable printer in its class. Best of breed, this extremely small footprint single station printer offers the reliability you have come to expect from Axiohm in monochrome and now in two-color (red/black or blue/black) printing modes.

### Fast and Reliable

We know how valuable transaction time is, so we designed the ColorPOS printers to cut down printing time at the point of sale. With a print speed of 180 mm/s in monochrome and 100 mm/s for two-color printing, Axiohm's ColorPOS printers are the fastest two-color printers in the industry with a monochrome print speed that is second to none.

If your business could use a dash of customer participation and retention, it's time you added a dash of ColorPOS to your receipts.

### ColorPOS

Continuing its tradition of innovation, Axiohm is proud to offer the first ColorPOS™ two-color thermal receipt printer. ColorPOS is a low energy two-color printer loaded with built-in unique application features for ease of use and integration.

### Increase Profitability

ColorPOS printers can reduce transaction time, improve loyalty programs, reduce the occurrence of receipt fraud, and increase accuracy for exceptions and returns.

Axiohm's ColorPOS printers will also do wonders to improve your brand image and brand recognition, and will increase understanding of and participation in your marketing programs.
